

The Reading Center
DYSLEXIA INSTITUTE OF MN

Comprehensive and Affordable Testing Options

We offer different levels of testing for children and adults.

In our 65 plus years of helping students, children, and adults, we have developed comprehensive methods to identify and respond to dyslexia. An educational evaluation from The Reading Center builds self-understanding, stops self-blaming for reading failures, and provides information to determine intervention strategies. We use a battery of language skills assessments to measure abilities in phonological processing, reading, spelling, writing, auditory processing, vocabulary and math. Our evaluations provide a clear and objective blueprint of a student's abilities and needs.

- **Full Educational Evaluation \$825 - (full written report included)**

The Full Education Evaluation provides comprehensive testing, review of previous testing information, an extended conference with the evaluator, and a written report for students. This evaluation is appropriate for students from the middle of first grade through adults. The written report is a valuable tool that can be used for working with schools or employers for seeking accommodations or extra support. Families also find it valuable for future referencing and documentation. On a case by case basis, testing and/or conference can be completed online for an additional fee of \$70.

Full Testing is 3.5-4 hours. Conference is up to 2 hours.

** If you must schedule the testing and conference in the same day, the cost is \$925.

** If you have had comprehensive testing with another provider within the past 12 months, you may be eligible for our Reading Skills Assessment (\$300). With advanced approval by our Director of Testing, you may register for a this assessment which includes 1.5 hour testing plus 1 hour conference, and does not include a written report. For more information call us at 507-288-5271.

For more information visit www.TheReadingCenter.org

- **Abbreviated Educational Evaluation \$400 (no written report)**

The Abbreviated Educational Evaluation will provide information to determine if the Orton-Gillingham approach is likely to be useful in helping the student. For those who go on to enroll in tutoring at The Reading Center, the information collected is necessary for the tutor to be effective and efficient. The family will have an opportunity to discuss findings with the tester; however, no written report or documentation beyond the test score profile will be provided for the family.

Testing is 2.25-2.5 hours. Conference is up to 2 hours.

- **Reading Readiness Assessment, for ages 4-6 FREE (no written report)**

The Reading Readiness Assessment is for emergent readers ages 4 years to middle of first grade. Although these age appropriate, brief tests are not diagnostic for dyslexia, these standardized assessments can help determine whether a child is "at risk" of reading problems.

Testing and Conference are both 30 minutes each

A Comprehensive Educational Evaluation provided by The Reading Center provides the blueprint for our tutors to begin working with your student so they gain skills and crack the code to reading!
